

# CLASS ACTIVITY: 1

NAME: Zainab Sheikh

CLASS: JN24-BBA-060

SECTION: A

## Question: 1

How can you breakdown the trip planning process into smaller manageable tasks?

(Decomposition:)

The trip can be broken into smaller tasks such as deciding travel arrangements, booking accommodation, preparing a packing list, setting a budget, planning sightseeing places, and keeping safety measures like weather updates and emergency contacts.

## Question: 2

What patterns can u identify from your past travel experiences?

### (Pattern Recognition:)

From past travel experiences, I can see patterns like forgetting essentials, facing delays in travel, saving money by booking early, quick weather changes in hilly areas and problems caused by overpacking. These lessons help avoid mistakes.

## Question : 3

### (Abstraction:)

The main elements to focus on are transport accommodation, food, budget, safety and sightseeing. These are essentials that matter the most for any successful trip.

## Question : 4

### (Algorithm Design:)

A step by step plan would be.

- 1) Decide dates and budget.
- 2) Book transport & hotel
- 3) Make and follow a packing list.
- 4) Check weather forecast.
- 5) Leave on time to avoid delays.
- 6) Visit planned places.

- 1) Take breaks for food and rest.
- 2) Return safely as planned.
